

CHANGES IN THE BOOK OF ABSTRACTS

Version 19-08-16

"The online programme is always updated. Please check it to get the latest information"

- **Cancelations:**

Abstract C00182: S. Brockhaus, M. Melcher, F. Leisch, S. Greven. Boosting flexible functional regression models with a high number of functional historical effects. **Session C0025.** Methods for functional response models. Room: Sala 1. Saturday 27.08.2016 12:00 - 13:15.

- **Change of room:**

Keynote talk 1: Hans-Georg Mueller. Random objects: Functional data in nonlinear subspaces and Frechet regression. **New Room:** Sala Cámara. Friday 26.08.2016 12:15 - 13:15.

- **Change of Keynote talk:**

Keynote talk 3: Hannu Oja. Recent extensions of independent component analysis, **will be replaced** by Prof. Frederic Ferraty, Nonparametric regression on contaminated functional predictor with application to hyperspectral data. Room: Sala 1. Sunday 28.08.2016 16:40 - 17:30.

- **Change in Summer Course:**

Lecture CK0209: Hannu Oja. Independent component analysis for functional data. **Session CC041.** Summer Course: Session VI, **will be replaced by** Prof. Gil Gonzalez-Rodríguez. Bootstrap in separable Hilbert spaces with applications to functional data analysis. Sunday 28.08.2016 08:50 - 10:50.
